REV'IT! streamlines logistics in new DC

An interview with Ivan Vos, Managing Director of REV'IT!, by Mark Dohmen

REV'IT! moved into its new European distribution center (EDC) in 2020. The new facility was urgently needed to facilitate the company's growth ambitions. REV'IT! enlisted Groenewout's support with the logistics design and equipment in the EDC. "We'd never have been able to pull this off without their experience and expertise," states Managing Director Ivan Vos.

Securing logistics premises: make risks manageable

Many logistics businesses believe that the remedy to theft and loss is a large and complex access control system, supported by security cameras and visitor/intruder detection systems. But is this really the case, or are they too focused on managing incidents?

Consultant [Stijn Belt](#) regularly sees companies implementing solutions in response to incidents. According to him, that can often result in a false sense of security. The way to avoid this is to develop a carefully thought-out security plan which forms the basis for a structural approach to warehouse security. Although it is never possible to completely eliminate risks, they can be reduced to a manageable level.
